

360° URETHANE AIR FILTER

Features:

- Advanced Polyurethane applied on the construction for lightweight & durability, and the one integrated formed base does not fall off.
- Strong iron mesh coated with Epoxy to strengthen structure, antirust and resist vibration.
- Non-woven fabric united with accurately 3D weaving technology for deeply pleat to increase the intake airflow for at least 20% volume.
- Advanced filter material, dust cover up to 96.9%
- Reducing the carbon deposite effective, extend the engine lifetime.
- Enduring the temperature range from -30°C to 150°C.
- Easily use the air-blow gun for cleaning and maintenance.

Aluminum anti heat shield for universal air filter

SH-01

ITEM NO.	C(mm)	Height(mm)
SH-01	310	140

WS-247

ITEM NO.	Width(mm)	Height(mm)	Neck(mm)

Character Code Rule

JAU-D02201-05

- Means filter height (Table 4)
- Means Top cap style & size (Table 3)
- Means filter element style (Table 2)
- Means base of Neck & Bottom width size (Table 1)
- Means Simota 360° air filter

For example:

If you're looking for a Blue 360° air filter with spec.: Neck size 77 * W151 * H130mm, flat top cap size 125mm, then the product code should be JAU-D02201-05.

Neck & Bottom width size (TABLE 1)

NECK (mm)	BOTTOM WIDTH	CODE

Carbon Fiber Lightweight Filter

Bell & cone-shaped inlet design is able to enhance intake performance. Hand-made Carbon Fiber cover with excellent protection.

- 1.Cone-shaped inlet design
- 2.Bell shaped cop
- 3.Strong Iron mesh with bright epoxy coating
- 4.High flow filter element with filtration protection
- 5.Carbon fiber shield reduce heat entrance.

Mini Air Filter

- Mini Air filter relieves your engine from positive crankcase pressure and recycled carbon vapors from your engine, which cause loss of throttle response due to build-up on the throttle body.
- By venting the vapors into the atmosphere, the Mini Air Filter helps resolve that problem.
- SIMOTA specially develops various of bolts for mini air filter with different neck diameters. You can now easily install the mini air filter on either hard or soft tube.

Replacement Filter Elements

- Replacement Filter Elements are available in oil-resistance proof construction.
- The impregnated with our unique type is standard Hexagonal Honeycomb model reloaded intake kits and designed for superior filtration while still providing excellent airflow.
- The foam is made up of new patent formula in Racing Suction kits and is focused on maximizing airflow for performance and protection. Keep harmful particles away from the engine.

CF Series - Carbon Fiber Aero Form Intake

1. 100% Handmade Carbon Fiber Lightweight Air Box.
2. Adopted high-density SIMOTA non-woven fabric coated with epoxy filter which is superior in a dust collection effect.
3. Edge protection Design for Carbon Fiber Box Exterior.
4. Customized perfect fitting by model specific Air box design with best performance and exterior for engine bay.
5. Horsepower increase up to 21HP.

AK Series – Heat Shield Intake

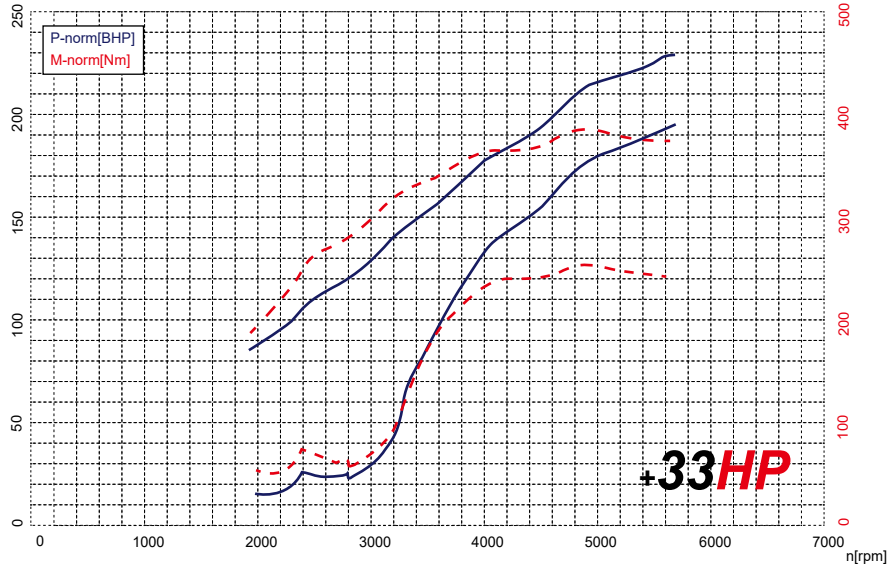

1. Aluminum intake tube in high quality for strength and durability.
2. Customized Aluminum black heat shield & Edge trim that protect the filter from dirt and debris, also insulation the hot under hood for a cooler intake airflow.
3. Fitting with SIMOTA Dual Air Filter for more air flow.
4. Dyno Test Horsepower for best performance up to 15.7 HP

PTS Series – Aero Form Intake

1. Maximum air flow with filtration protection.
2. Simply experience good torque at lower RPM range.
3. Top end horsepower at higher engine revving with great sound.
4. Air box made from ABS plastic, and label with a carbon fiber pattern

Real SIMOTA product high quality banner.

Aero Form intake area design for maximum air flow.

CB Series - Carbon Charger Intake

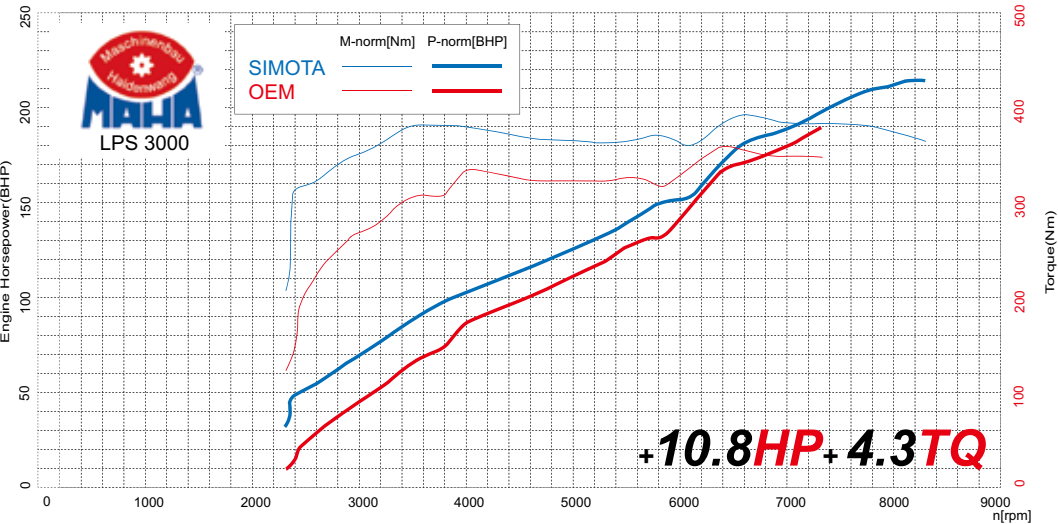

- 1. 100% handmade carbon fiber box for lightweight.
- 2. Unique air box cover with 6 spiral design, which is smooth high pressure airflow into engine to enhance horsepower.
- 3. Inlet pipe design for air inhaling deeply to upgrade Torque efficiency, especially just start driving with low-speed.
- 4. Minimal noise and heat insulation
- 5. Horsepower increase up to 10HP.

CB-901

* Unique cover with 6 spiral design :
few model isn't included.

CB II Series - Carbon Charger Intake / shark Style

1. Shark style of Carbon fiber intake systems are SIMOTA newest revolution technology.
2. For the powerful high-speed engine suction, CBII enlarge the intake system volume and inlet, which can reserve more air in the interior for throttle open instantaneous intake required.

Dry carbon kit, 100% handmade with unique surface.

Unique housing design for more air storage space, enhance torque power and horse power in best function.

By high quality silicone with 4-ply of reinforcement nonwoven. It is durable, anti-heat, anti-oil, anti-expansion and anti-pressure.

Particular Air Intake Systems

SIMOTA
www.simota.com

Super inlet big tube / for HONDA Civic

Using a unique flared intake tube design for CIVIC EG/EK series, effectively increasing the compressed air flow by its enlarged pipe. Direct replacement for stock intake system.

According to personal favorite, intake tube offering PE plastic and Carbon Fiber pipe for option.

H-002F

Model: H-002F

Material: High density PE intake pipe
Equipped with SIMOTA Urethane filter(cleanable)
and high density PE intake pipe for budget price.

ITEM NO.	DESCRIPTION	YEAR
H-002F	CIVIC EG	92-95
	CIVIC EK	96-00

H-004BCF

Model: H-004BCF

Material: Carbon Fiber intake pipe
Equipped with SIMOTA Urethane filter
and 100% Carbon Fiber intake pipe for better
heat dissipation.

ITEM NO.	DESCRIPTION	YEAR
H-004BCF	CIVIC EG	92-95
	CIVIC EK	96-00

Air Intake Systems

Twin air filter intake / for CHEVROLET Corvette

Direct replaced the OE airbox intake system for plenty airflow entrance.
Particular Dual intake air induction kits, equipped with SIMOTA Urethane filter (cleanable).

Turbo Piping with Larger Throttle

- 1. Increase the intake air flow, shorten the acceleration time, and also provide better horsepower performance.
- 2. CNC axisless surface processing, corresponds to original car without modification needed, 304 stainless steel liner to prevent deformation.

CT-002

304 stainless steel liner to prevent deformation.

Universal Air Intake Systems

WS Series/ Universal *cold air intake kits*

1. Available for the pipe inlets - 65 / 70 / 77 / 80 / 85 mm
2. With additional EGR valve design.
3. Reduces heat accumulation.
4. Smooth horn-shape air inlet, prompt supply with cold air into the engine.
5. Flexible 700mm length black silicon duct for any angles.
6. Dyno Test Horsepower for best performance up to 15 HP.

Auto Accessories

3 in 1 Performance Oil Filter

Feature:

- Can effectively absorb the metallic particles while the oil cycle operating then protect engine.
- Increase oil flow and prolong oil to be deteriorated.
- Protect engine against the iron filings.
- Prevent oil temperature from overheating.

Powerful magnetic : With a high power magnet that removes metallic particles and other impurities within your oil system promoting smooth oil circulation and the cleanest oil possible.

Honeycomb spiral column : Design helps oil form Super Oil Vortex. It increases oil pressure of the engine.

Stainless Steel Mesh : With pleats provides superior oil filtration thus increase work efficiency of the engine oil flow. It not only increases the horse power and torque but also saves cost and fuel.

Anti-drain membrane : preventing the foul oil returning, also supplying the oil immediately once engine start.

Rubber gasket : Against the leakage between oil filter & installation base with very stringent specifications, must be resistance to high temperatures & oil, also anti-aging.

Installation Notices:

1. Apply oil to sealing gasket surface before installing.
2. When gasket makes contact with sealing surface, tighten with appropriate tool.
3. To check for oil leaking after installation.

Air filter Cover (pre-filter)

Made from top quality polyester with perfect protection the air filter from dust and dirt when driving under the critical environment.

Design with easy to slip on equipment, then get filter longer lifetime.

Item No.: FC-002:

1. Actual product measurement: Top cone 130 * H 160 * Base inter diameter 60 (mm)
2. Recommend fitting size for filter: W151 * H 130 * N 77 * top cap 120(mm)
3. Shape: Closed Top, Round Tapered, base with woven elastic band.
4. Color: Black
5. Material: Polyester

Blow off valve aluminum pipe adapter

Made of High Quality Aluminum pipe by Polished finished for strength and durability.

Silicone Coupler

SIMOTA Silicone pipe couplers are made from high-temperature resistant silicon and have four layers of reinforced polyester fabric. Straight coupler, bends and reducers are all available in a number of different sizes to suit your air intake application.

Feature:

- Easy to adapt your piping needs.
- 4-Ply of reinforced polyester fabric, durable, anti-heat, anti-oil, anti-expansion and anti-pressure.

Super Spiral Turbo Ventilator

SIMOTA spiral turbine intake, use of exclusive diamond diversion hole design which increase the intake air and stability. Not only make your car fuel efficient, but also to enhance the torque; so throttle response more agile. It effectively reduce the engine compartment carbon, reduce air pollution, easy to install. Especially apply with SIMOTA high performance replacement air filter, with result of effect is more significant.

Feature:

- Improved fuel economy.
- Instant increase in engine power.
- Reduction in carbon deposit to your engine.
- Minimized air pollution.
- Enhanced throttle response and acceleration.
- Equipped high-speed precision bearings, up to 30,000RPM.

ITEM NO.	NECK(mm)
CT-526	Ø55~64mm
CT-626	Ø65~70mm
CT-726	Ø71~78mm

Fits All Following Engines

CAR. BRAND	NECK(mm)
TOYOTA	56~65mm(800C.C~2000C.C)
MAZDA	71mm(OVER2000C.C~)
FORD	56~71mm (800C.C~2000C.C~)
HONDA	71mm(OVER2000C.C~)
MITSUBISHI	71mm(OVER2000C.C~)
NISSAN	65mm(1300C.C~2000C.C)
TOYOTA	65~70mm(OVER2000C.C~)

Installation instruction:

1. Location: Install it between air filter and throttle body, into the middle of inlet pipe.
(Propeller side face to the air filter)
2. Optimal location: Install it 10~30 cm away from the inlet throttle body.
3. If inlet pipe is curved: you can install it into the middle of dual bend pipe.
4. If car equipped the air flow sensors(AIF), install it before or after AIF with the same size.
(When there is minor difference in size, you can wrap a few rounds of tape on outer rim.)

Air Filter Cleaner & Oil Kits

Feature:

- Clean the filter at least every 8,000 - 10,000 KM to maintain optimum performance.
- We recommend the filter to be cleaned more often for off-road and high-performance street conditions.
- Always check your filter everytime you change your oil.

1

Take out the air filter from the intake airbox. If you have trouble removing it, please go to an authorized dealer nearby for help.

2

Use the air-blow gun to roughly clean the dust and dirt attached on the surface of the filter.
The unique material of SIMOTA's mesh can bear with all regular air-blow gun pressurized.

3

After cleaning the surface, apply proper amount of the SIMOTA Air Filter Cleaner evenly on the filter.
No water, using other types of cleaner such as detergent, bleach, and solution may damage the filter.

4

Allow cleaner to soak into the filter mesh, and then use the air-blow gun to clean it. Repeat Step 3 and Step 4 until all residues of cleaner are gone.

5

Let it dry naturally or use the air-blow gun to dry it.
Do not use any other drying method as it may damage the filter

6

Apply a proper amount of SIMOTA Air Filter Oil evenly on the filter.
** Do not OVER-OIL the AIR FILTER.
Over-oiling may interfere proper performance of the engine.**

7

After waiting for the oil to be absorbed by the filter mesh, reinstall the filter back to the intake airbox. Be sure the screws are tight or the tenon is buckled.

OC-04

**USE ONLY SIMOTA AIR FILTER CLEANER AND OIL KIT.
USE OF OTHER BRAND CLEANER KIT IS NOT RECOMMENDED AND
MAY VOID YOUR WARRANTY.**
